

Oakville Jaguars

Soccer Academy Inc

CONCUSSION POLICY

Oakville Jaguars Soccer Academy will follow the Ontario Soccer concussion policy and will make use of their forms as needed (see attached)

All players who receive a hit on the head must be removed from the field and assess for a possible concussion. The player will not return to the training/game/activity during that day as a safety measure.

As part of the Concussion Management Plan, OJSA will:

- Provide players, coaches and guardians with annual education about the signs and symptoms of concussions.
- Advise guardians that they must look for medical attention if their child is showing any sign/symptom of concussion
- If a concussion is confirmed by a medical professional, the player cannot return to soccer/physical activities until his doctor/medical professional provides a clearance letter (partial/non-contact/full contact details must be provided).
